DESIGN+DIRECTION

Oslo, Norway

Heydays is an Oslo-based multi-disciplinary design studio specialized in printed media, creative direction and graphic design. We work within a wide range of projects, from corporate identities, interactive websites, magazines, books and packaging. We strive to find a balance between idea, function and aesthetics in each of our projects. We're like a young Marvin in his hey.

## Heydays

We are five people who set up Heydays back in 2008. We like to work in a broad range of projects. Recently we have explored more branding and strategy projects, but we also love to work on smaller websites and printed matter.

Since we started a little under 2 years ago, we've been lucky enough to win a few awards in our home country Norway. And have been featured in international publications such as Los Logos and IdN, and on websites like It's Nice That, FormFiftyFive and last but not least QBN.
