Me and Mister Jones

Antwerp, Belgium

Nov 2010 - Present

For the last four years, we've been making waves in Asia, where we've transformed one of Singapore's leading design consultancies into a highly rated full service brand design consultancy, doing serious projects for major clients – some of which you can see here.

Before that, we did much the same in Belgium, where we both spent the first decade or so of our careers.

Now, we're back. And this time, it's personal. By which we mean that, having worked for others for a very long time (15 years in mileage), we're more than ready to combine our collective power of harnessing strategy and creativity.
