

Jay Wiggs

VISUAL ARTIST

Atlanta, Ga

As a visual artist, I have a very strong belief in my abilities to perform. I'm confident from the moment I grab my gear (camera) to capture art. I'm up for any challenge thrown my way. I don't enjoy being thrown in 1 particular box. I believe it limits my creativity. Over the past year I have dabbled in a few different styles and I am quite happy with my current aesthetic. I am really into sleekness, sharp lines and minimalism. The more I travel and produce work in different markets, the more appreciation I gain for the craft and the culture. My philosophy is to stay grounded and being disciplined..these 2 elements got me here and over the years made me who I am today...and I've managed to instill the same behavior within my work center or team...I truly believe in my work ethic..I breathe it like oxygen
