I was born in November 11, 1988 (remember to send me birthday gifts). I'm currently haunting Ho Chi Minh City, Vietnam. I'm currently a Multimedia Design student in RMIT University (almost graduating, anyway). When it comes to design, I'm a serious perfectionist who's in love with simplicity. My goal in design is to maintain balance between the conceptual meaning & visual aesthetic. At the moment, I'm working as a freelance designer & currently building a freelance team called Mindfusion. The services I'm providing are: brand identity design, graphic design & web design.

Experience

Freelance Designer
