I'm an information technology and web development professional with ten years of startup and enterprise experience.

Experience

Freelance Web Developer

JoeCode

Coeur d'Alene, ID
May 2000 - Present

I build, deploy, and manage websites using open source content management systems. I prefer Magento for ecommerce, Textpattern or Wordpress for blogging, and Concrete5 for corporate websites.

RECENT WORK:

- * [United Way of Kootenai County](#)
- * [North Idaho CASA](#)
- * [Saint Vincent de Paul North Idaho](#)
- * [Element Fabricating](#)
- * [Periwinkle Children's Therapy](#)
- * [JCS Advisors](#)

Senior Integration Developer

Neokinetics Corporation

Coeur d'Alene, ID
Nov 2006 - May 2009

Responsible for development and integration of proprietary user authentication and authorization behaviormetric security systems using PHP, Javascript, CSS, MySQL and Lighttpd. I also deployed and maintained Linux and OS X servers for development, email, backup, and file storage.

Director of Information Technology

Tahoma Capital

Seattle, WA

Sep 2005 - Sep 2006

Responsible for management and deployment of all information technology systems including Windows Server 2003, Active Directory, Exchange, Cisco networking, Bloomberg terminals, VOIP phone system, and MySQL servers in order to support a 20 person 446 million dollar hedge fund.

Developer

Agent Science Technologies

Coeur d'Alene, ID

Jun 2004 - Sep 2005

Responsible for development and deployment of content management and web based search applications for US Government institutions using a mix of PHP, Perl, Javascript, CSS, and XHTML on Linux and Mac OSX Server systems. I also deployed and maintained internal information technology systems.

Web Developer & Manager

Amazon.com

Seattle, WA

Jun 2000 - Jun 2004

Responsible for migrating significant portions of Amazon.com's code base from a propriety in-house system to the open source Perl/Mason technology. I also managed seven developers directly for over a year as the development manager for the books, music, video, dvd, and magazines product team. I worked extensively with the search and browse team on improving customer experience, as well as the buying and onsite support team improving checkout and post order help systems.

Web Developer

Medinex

Coeur d'Alene, ID
May 1999 - May 2000

Responsible for user interface design and development of a web based HIPPA compliant medical office management application using JSP and DHTML technologies. I also represented the company at trade shows as a technical consultant including NetWorld Interop.

Web Developer

Netivation

Coeur d'Alene, ID
May 1998 - May 1999

Responsible for design, development, and production of a daily political online news portal and 50,000 subscriber mailing list using Perl CGI on Linux systems.

Technical

Technical

Perl, PHP, XHTML, CSS, Javascript, Ajax, CentOS, Ubuntu, Windows Server 2003, Mac OSX Server, SVN, MVC, Code Igniter, Expression Engine, Magento, Textpattern, MySQL, Apache, Lighttpd
