I am Cem Sirolu who is an industrial engineer with masters degree in mechanical engineering,

Senior executive CEO and company founder of YENASOFT and YENAPLUS.

I have experience on 3D design, modelling, simulation, manufacturing & intelligence software for more than 25 years. Right now my companies are providing 3DEXPERIENCE Platform Solutions to companies that enables them to create sustainable innovation.

I volunteer in different non-governmental organizations.

Travelling is my passion and I have traveled to more than 100 countries. Interested in photography as a hobby and here are the photos of different countries. Enjoy it 😊
